

Lab Goal : This lab was designed to teach you more about the String class and how if statements are used.

Lab Description : Compare two strings to see if each of the two strings contains the same letters in the same order.

Useful methods :: `.equals()` `compareTo()`

Sample Data :

```
hello goodbye
one two
three four
TCEA UIL
State Champions
ABC ABC
ABC CBA
Same Same
```

Files Needed ::

```
StringEquality.java
StringEqualityRunner.java
```

Sample Output :

```
hello does not have the same letters as goodbye
one does not have the same letters as two
three does not have the same letters as four
TCEA does not have the same letters as UIL
State does not have the same letters as Champions
ABC has the same letters as ABC
ABC does not have the same letters as CBA
Same has the same letters as Same
```
